Cartridge included in this package

PAL  
U.K.

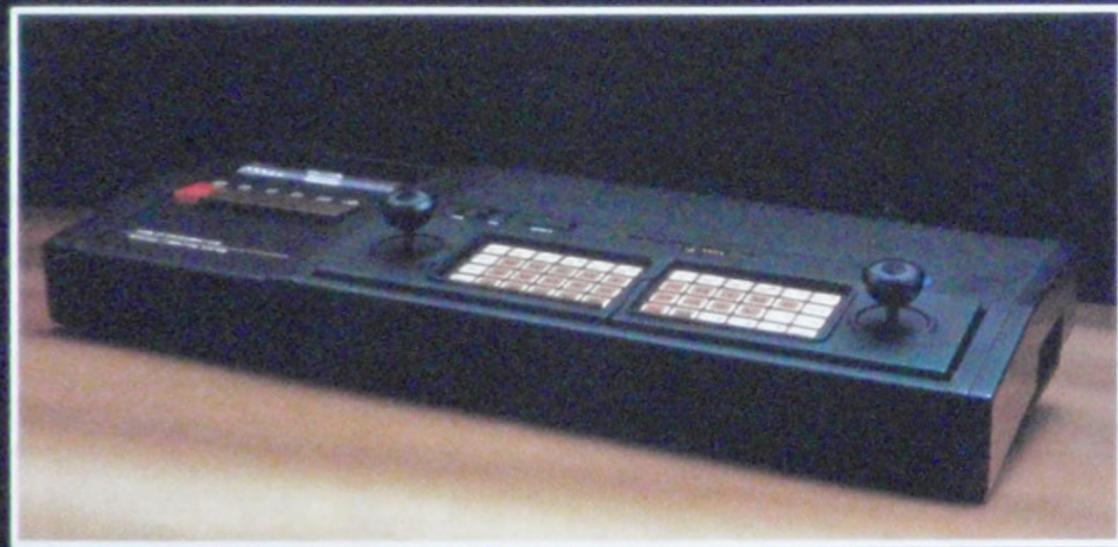

'CREATIVISION' home entertainment and personal computing system is a computer-based system that brings creative games, entertainment, education and personal information processing into your family.

**When used as a HOME ENTERTAINMENT SYSTEM/TV GAME:**

Supplied with the main unit is a game program used for game playing purpose. Game programs of different interests are being developed which provide choices for optional purchase now and in the future.

**When operated as a PERSONAL COMPUTING SYSTEM/HOME COMPUTER:**

One important feature of this unit is its capability to expand to a personal computer simply by insertion of the 'CREATIVISION BASIC ROM PROGRAM' (To be supplied as optional extra); no other accessories are necessary. Already built-in the main unit are: 16k bytes of dynamic random access memory, 1k bytes of static random access memory and, a 48-key alpha/numeric electronic keyboard; these will be adequate for data processing. Further expandability will be made possible by the following optional extra purchase:- 'CREATIVISION CASSETTE INTERFACE' for massive program storage. 'CREATIVISION MEMORY MODULE' for more memory capacity.

- TANK ATTACK CREATIVISION
- SONIC INVADER CREATIVISION
- TENNIS CREATIVISION
- THE GREAT RALLY CREATIVISION
- HAUNTED VILLA CREATIVISION
- ASTRO FIGHTER CREATIVISION
- PARACHUTE CREATIVISION
- PINBALL
- PLANET DEF
- GA
