with dozens
more to come . .**

'Rameses' software programmes

In computer terminology, 'software' refers to the programs that instruct your computer to perform different functions. The more software you have, the more functions your computer can perform. Here are just a few of the many available 'Just for Fun' software cassettes; game cartridges with "come-to-life" graphics!

- GALAXY DEFENDER (Dec. '82)
- AIR/SEA BATTLE (Dec. '82)
- TANK BATTLE (Dec. '82)
- WHO'S FOR TENNIS (Dec. '82)
- CAR CHASE (Dec. '82)
- SUPER DROPPER (Feb. '83)
- COP JUMP (Feb. '83)
- SKIING (Feb. '83)
- AMAZON (Feb. '83)
- PINBALL (Feb. '83)

**You ain't seen nothing yet!
There are over 36 Titles coming!!
Many more games are being developed
so look out!!!**

HANIMEX 'Rameses'

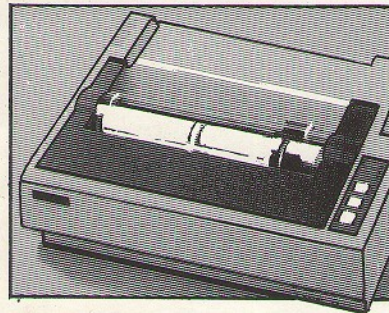

COMPUTER HARDWARE

'Rameses' offers the consumer one of the widest ranges of 'plug-compatible' hardware available - it's so simple they just plug into the Rameses Console to turn it into a computer - here's a selection:

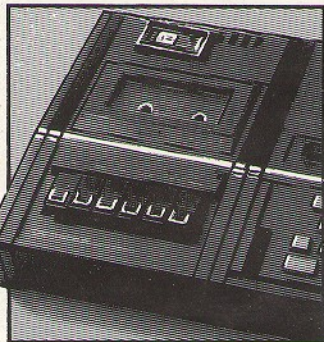

BASIC CARTRIDGE

Purchase of this cartridge turns your console into a computer. The console has 1K Byte Static RAM & 16k Byte Dynamic RAM already built in. Included with the cartridge is a fully comprehensive manual. Available January '83.

'RAMESES' PRINTER

With text reproduction and graphic capabilities for crisp, clean copies of anything you store or create. Available April/May '83.

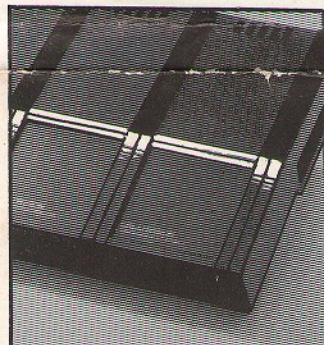

CASSETTE DRIVE

Stores programs and data on ordinary cassette tapes; an ideal low cost storage unit. Available January '83.

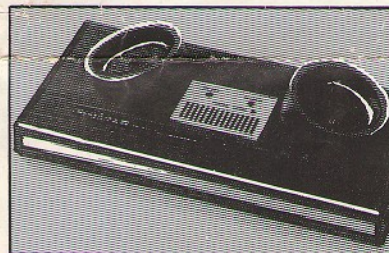

SERIAL PARALLEL I/O INTERFACE MODULE

For vital documents and graphics you can get high speed print out in seconds - interface connects to Rameses Printer. Available April/May '83.

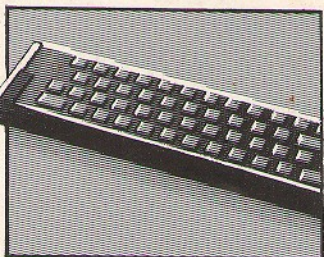

EXPANSION MODULE

Run longer programs and have instant access to 16k byte of additional stored data. Expandable to 64k by adding more. Available April/May '83.

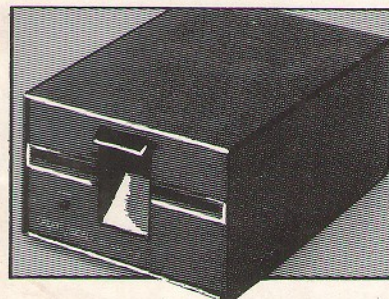

'RAMESES' TELEPHONE INTERFACE

Use the telephone to send high speed communication of text or graphics to other computers anywhere in the world. Available June '83.

'RAMESES' KEYBOARD

Install an optional low cost plug-compatible keyboard with full size moving keys at normal typewriter pitch. Available March/April '83.

'RAMESES' FLOPPY DISC DRIVE

Offers you speed, memory and storage facilities. Offers over a 100 pages of typed data stored on each floppy disk, ready for instant access. Available May/June '83.

'RAMESES' SOFTWARE - Available from March '83 onwards ● Many programs are being developed so ask your retailer for the latest.

- **BUSINESS SOFTWARE** - Over 18 titles including ● home finance ● stock market analysis ● home secretary.
- **EDUCATION SOFTWARE** - Over 30 titles including ● spell & fun ● music maker ● number fun.
- **GAMES SOFTWARE** - See other side for details.
