HANIMEX **Rameses**

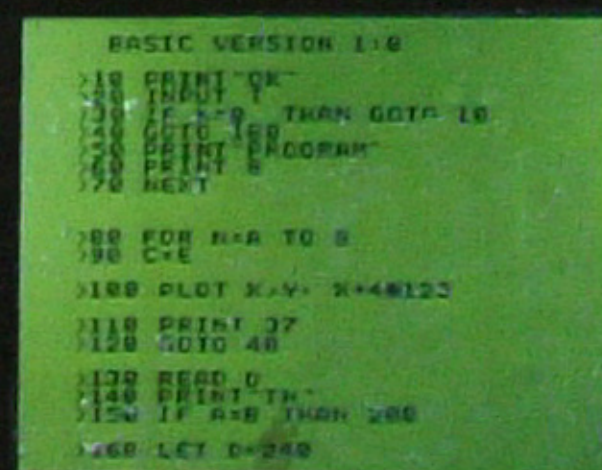

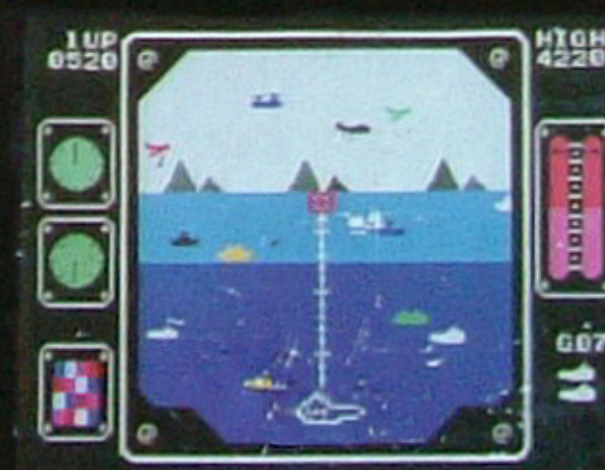

Home Computer Console and Video Entertainment Centre

RAMESES - Home Computer and Video Entertainment System is computer based, connects to your color TV set, and brings to you a wide range of creative video games, intriguing computer-constructed entertainment, and a wide range of information processing.

- THE CONSOLE and items with it enable immediate entry into graphic video games.
- GAME CARTRIDGES are available now, and an expanding selection of different types is constantly available.
- COMPUTER FUNCTION enabled by addition of a RAM Basic Interpreter cartridge of 12K.
- BULK DATA STORAGE available by addition of a RAMESES Cassette Drive of 600 baud rate.
- RAMESES ALREADY HAS:
 - ▶ 16K bytes of dynamic Random Access Memory;
 - ▶ 1K bytes of static Random Access Memory;
 - ▶ 48-key alpha-numeric electronic keyboard.
- AND AS YOU NEED IT:
 - ▶ YOU CAN ADD-ADD-ADD, up to a full 64K bytes of RAM;
 - ▶ Input/Output extenders;
 - ▶ Printer;
 - ▶ Disc Drive;
 - ▶ Extended Keyboard
- PLUS an expanding range of home computing programmes recorded on RAM cassettes.

Rameses Cassette Drive available separately.
